

PRODUCT CATALOGUE

130 fertiliser analyses · blended and supplied in Australia

Minimum order	10 - 25 MT, depending on product and destination
Delivery	Australia-wide - every state and territory
Export	Shipped worldwide, quoted per container
Payment	Bank transfer - EFT within Australia, T/T for export
How to order	Enquiry and written quotation only. No online ordering or payment.
Documentation	Certificate of Analysis and Safety Data Sheet on request
Data sheets	naturesfertilizerptyltd.com/data-sheets - free, no registration

Prices are quoted, not published. What you pay depends on the analysis, the tonnage, the packing and the freight to your address - so every enquiry is quoted individually and in writing. Send the RFQ on the final page and we will come back with product and freight priced separately.

Urea 46-0-0	46-0-0	460	0	0	46	Granular

N kg/t, P2O5 kg/t and K2O kg/t are the kilograms of each nutrient supplied by one tonne of product. Total units is the sum of the three - the quickest way to compare one analysis against another, because nutrient content rather than tonnage is what you are actually buying.

Packing and Container Loading

Format	Net weight	Typically used for
25 kg bag	25 kg	Small holdings, trial quantities, hand or small spreader application
50 kg bag	50 kg	Standard bagged supply for general farm and horticultural use
500 kg bulka bag (FIBC)	500 kg	Loader or telehandler handling where a full tonne is too much
1,000 kg bulka bag (FIBC)	1 tonne	The standard broadacre unit — one bag, one lift
Bulk	By the tonne	Tipped or augered into your bin or spreader; lowest cost per tonne

Packing	Loading method	Units per 20ft	Net weight
25 kg bags	Floor loaded (loose stacked)	1,000 bags	25 MT
25 kg bags	Palletised, 40 bags per pallet, shrink-wrapped	20 pallets / 800 bags	20 MT
50 kg bags	Floor loaded (loose stacked)	500 bags	25 MT
50 kg bags	Palletised, 20 bags per pallet, shrink-wrapped	20 pallets / 400 bags	20 MT
500 kg bulka bags	Floor loaded, two tiers	40 – 50 bags	20 – 25 MT
1,000 kg bulka bags	Floor loaded, single tier	20 – 25 bags	20 – 25 MT
Bulk	Loaded into a container liner bag	—	25 – 27 MT

Fertiliser is a dense cargo: a 20ft container reaches its weight limit at roughly 25-27 tonnes while still only part full, so a 40ft box offers no usable gain. Shipping in 20ft containers is standard and is normally the cheaper freight per tonne.

Request for Quotation

Complete and email to info@naturesfertilizerptyltd.com, or send the same detail by WhatsApp on +61 485 933 924. We reply with a written quotation showing product and freight separately, so you can see the delivered cost before you decide.

Product required	Analysis	Tonnage (MT)	Packing

Delivery address, or destination port for export	
Date required on the ground	
Unloading available (loader / telehandler / forklift / tipping bay)	
Company name	
Contact name	
Phone / WhatsApp	
Email	
Anything else we should know	

Minimum order 10-25 MT, depending on the product and the destination. Submitting this form does not place an order and commits you to nothing. Payment, if you proceed, is by bank transfer - EFT within Australia, T/T for export. Bank details are issued on our invoice only; we never change them by email alone.
